Set the options for the random set.

## Options

### Randomization

\* Draw  question(s) from

A student's questions are randomized each time an assessment is submitted  
 A student's questions are randomized once for all submissions

### Scoring

\* Correct answers are worth  point(s).

\* For 'True False' or 'Multiple Choice, Single Correct' questions, deduct  point(s) for incorrect answers. This overrides the original pool setting.

1. Enter the number of questions to draw from the selected question pool.
2. Select the question pool from the drop-down menu.
3. Choose to either randomize student questions each time an assessment is submitted or randomize student questions once for all submissions.
4. Enter the point value for correct answers on each question. Note that all questions in this random draw must be worth the same amount of points.
5. (Optional) For True/False and Multiple Choice, Single Correct questions, you may also enter a negative point value if a question is answered incorrectly.

*Note: Point values entered here override any value that was specified for individual questions in the corresponding Question Pool.*
